

# PUBLIC NOTICE

## TOWN OF BRENTWOOD

### Mosquito Control

The Mosquito Control program begins the week of April 16, 2018 in the Town of Brentwood. Crews from Dragon Mosquito Control will be checking swamps, marshes, woodland pools, ditches, storm drains and other shallow, stagnant water for mosquito larvae. When mosquitoes are found, the following insecticides may be used:

VectoBac (*Bacillus thuringiensis israelensis*)  
VectoMax WSP (*Bacillus sphaericus* and *Bacillus thuringiensis israelensis*)  
Fourstar Bti CRG (*Bacillus thuringiensis israelensis*)  
Duplex-G (*Bacillus thuringiensis israelensis*, methoprene)  
Altosid (methoprene)  
BVA 2 Mosquito Larvicide Oil (mineral oil)  
CocoBear MLO (mineral oil)  
AquaBac 200G (*Bacillus thuringiensis israelensis*)

If Eastern Equine Encephalitis or West Nile Virus is found in or near Brentwood, then emergency spraying may be conducted using one or more of the following products:

Cross Check Plus (bifenthrin)                      Permanone (permethrin)  
Duet (sumithrin & prallethrin)                      Zenivex (etofenprox)  
Essentria IC<sup>3</sup> (rosemary oil, geraniol, peppermint oil)

Emergency spray treatments may be conducted at the following locations:

Swasey Central School  
Brentwood Recreation Area  
Library Field

It is not possible to predict if emergency spraying will be necessary. The spray schedule is based upon mosquito surveillance data, disease test results and weather conditions. Further communication will be given if emergency spraying is going to take place.

Residents who do not want their wetlands treated may use our No-Spray Registry online at [www.dragonmosquito.com/no-spray-registry](http://www.dragonmosquito.com/no-spray-registry) or write to Dragon Mosquito Control, P.O. Box 46, Stratham, NH 03885. Be sure to include your name, physical address, phone number, a description of your house and acreage.
